Join us for a presentation by

Brian Whited, Arizona Division Manager for Techniquex

Presents:

Specialty Flooring with GREEN Twist

Since our inception in 1984, *Techniquex* has earned a reputation for **delivering superior craftsmanship and overall value by operating a professional and dependable company**. We built this reputation through our **dedication to total customer satisfaction**. We procure the highest quality material and employ the finest technicians in the industry. Our delivery on this commitment has brought us recognition as the **leader in specialty flooring**, and we continue to add to that reputation each and every day.

Brian Whited presentation will cover various types of **epoxy flooring, concrete polishing, traffic bearing waterproof coating and concrete vapor reduction systems** including the **proper installation procedures** for each. Upon completion of the presentation attendees will be able to properly specify various specialty flooring systems, avoid potential installation issues, understand the components of each system and how they affect performance, and correctly identify concrete moisture and ASR problems

Don't miss this presentation.
