SUMMARY

Dynamic and collaborative industry professional with over 5 years of experience in architectural design and drafting, programming, site and environmental analysis, engineering systems coordination, code research, specification and material research, and design checking and coordination. Skilled administrator in project management, business development and marketing. Passionate and creative visionary with accomplished abilities in 3d computer modeling, rendering, architectural graphic, and presentation design.

EXPERIENCE

Project Designer/Project Manager

BDA ARCHITECTURE PC – Albuquerque, NM

[Sept. 2009 – Sept. 2011] [May 2005- Feb. 2007] – Intern Architect [Summer 2004] – Summer Intern

Work in collaboration with the project teams to conceptualize, design, develop, draft, and manage various architectural projects throughout the country.

- Project designer and Project Manager for numerous projects throughout the United States varying in size from 6,000 SF to 26,000 SF.
- Production lead for numerous schematic, design development and construction document packages for various clients while utilizing the latest CAD technology.
- Creator of marketing presentations for prospective and completed projects.
- Prepare competition submittals
- Attended national conferences to represent and market the firm to prospective clients.

Job Captain, Designer

THE HARTMAN + MAJERSKI DESIGN GROUP – Albuquerque, NM

[Feb. 2007 – April. 2009]

Created design concepts and solutions through collaborative analysis of client requirements, budget, program, site constraints, and overall project goals. Principal administrator responsible for the communication between the project team, client, general contractor, consultants, and public authorities. Responsible for the preparation and development of schematic design, design development, and construction documents. Ensures that each project is designed accordingly, maintaining the budget and schedule. Responsible for project administration, overall client satisfaction, project success, and completion.

- Participated in a 4 month long School facility assessment study in collaboration with Denise Davis, owner of Facility Planning Associates to assess and record the public school facility conditions through site visits and interviews.
- Designed, developed, and co-managed, in collaboration with the principal in charge, the restoration and modernization of Mitchell Hall, a 40,000sf 1950's John Gaw Meem college educational classroom building at the University of New Mexico and led the construction document production effort and LEED silver certification submittal.
- Designed, managed, and produced the design and construction documents for a 7000 sf medical office building using AutoCAD REVIT.

Owner

Albuquerque, Rendering, Environment, Artists – Albuquerque, NM

[May 2009 – Feb 2011]

Co-creator and developer of this start-up two person company that specialized in the creation of stylized and photo-realistic architectural illustrations.

- Producer of 2d and 3d images that represent the design intent of the client's project using the latest computer modeling technology.
- Administrator of client goals and manager of client satisfaction and schedule.

EDUCATION

Master of Architecture

University of New Mexico

Awarded May 2006

Bachelor of Arts in Architecture

University of New Mexico

Awarded May 2004

CORE COMPETENCIES

Creativity & Innovation	External Awareness	Flexibility
Resilience	Strategic Thinking	Vision
Conflict Management & Resolution	Diversity	Strategic Relationships
Team Building	Integrity & Honesty	Accountability
Customer Service	Decisiveness	Entrepreneurship
Problem Solving	Credibility	Financial Management
Influencing & Negotiating	Interpersonal Skills	Written & Verbal Communication

TECHNICAL EXPERTISE

AutoDesk REVIT, AutoCAD, AutoCAD Architecture, SketchUp, SketchUp Layout, Kerkythea, Form Z, Google Earth, Adobe Photoshop, Adobe In Design, Adobe Illustrator, Microsoft Word, Microsoft PowerPoint, Microsoft Excel, Mac Operating systems, exceptional freehand and physical modeling skills.

LICENSES AND ACCREDITATIONS

NCARB Intern Development Program requirements complete. In-process of obtaining professional Architecture license. Completed exams: Site Planning and Design, Programming Planning and Practice, Construction Documents and Services, Schematic Design

RECOMMENDATIONS

"Ramon is a naturally talented designer with the ability to manage the consultant design team, maintain effective client contact, and assemble drawings and documents to complete projects. His computer skills are exemplary in both design and presentation oriented programs and will upgrade any firm's capabilities in that area." *September 13, 2011*

Wayne Usiak, CEO, architect, BDA architecture PC, managed Ramon at BDA Architecture

"Ramon worked well with the limited information he was given. The project that A.R.E.A helped me with had been in trouble and we needed a high quality, quick turn around. A.R.E.A. delivered a fantastic result in a very quick time. The renderings looked great and A.R.E.A. was able to add to the design concept in the process. Ramon is talented and hard working. I know these are words that are over used in references and recommendations, but, in Ramon's case, the words are well matched to his performance." *June 16, 2011*

Top qualities: Personable, On Time, High Integrity

Jimmy Hendrix, Hired A.R.E.A for Design and Rendering services in 2009
